

# Life Sciences & Healthcare

---

We advise our clients in a multidisciplinary way in regulated sectors involving health, agriculture and biodiversity.

# Our services cover

- Assistance in regulatory matters involving government agencies, such as the National Health Surveillance Agency (ANVISA), National Agency for Supplementary Health Services (ANS), Brazilian Ministry of Health (MS), and the Ministry of Agriculture and the National Institute of Meteorology, Quality and Technology (Inmetro).
- Assistance in the structuring and execution of projects in the health sector, including Healthtechs, involving technologies such as telemedicine, artificial intelligence and the Internet of Things (IoT)
- Elaboration and negotiation of contracts and peaks in the sector, such as technology transfer contracts, research and development, licensing of intellectual property assets, provision of technical services, distribution, supply, clinical research, medical assistance, among others, including contracts of Productive Development Partnerships (PDPs) with public laboratories.
- Obtaining, defending and maintaining intellectual property assets related to the sector, such as trademarks, patents and cultivars, including in extrajudicial and judicial disputes, in Brazil or abroad
- Administrative litigation and industry processes, including processes related to public procurement, drug pricing, health plans and obtaining licenses, registrations, permits and certifications.
- Consulting on highly regulated topics such as clinical research, pharmacovigilance and cosmetovigilance

- Advice on health data protection and compliance with regulations applicable to new technologies in the health area
- Consulting and action in demands involving consumer rights, PROCON, Public Ministry and recalls.
- Advice on regulated advertising on all types of platforms (internet, print media, television, etc.), by competent authorities and entities, such as ANVISA and CONAR.
